VOLUME XXV.

MT. STERLING, KENTUCKY, WEDNESDAY, DECEMBER 1, 1915.

NUMBER 22

MARKET OPENS HERE MONDAY

Three Loose Leaf Tobacco Warehouses in this City are Ready for the Sales.

We have been advised by the managers of the three loose leaf tobacco warehouses in this city that they have engaged their sales force and handlers and that everything is in readiness for the first sale of the year in this city, which will be held Monday, December 6th. All three houses are now receiving tobacco and the farmers are advised that they can bring in their crops any time.

Notwithstanding the report that has been circulated that the selling fees would be increased this year, those in charge advise us that the selling fees in this city will be just the same as charged last year.

Again we urge those with tobacco to sell to bring it to Mt. Sterling, as we are confident you will get as much, if not more than you can get for it elsewhere.

ENGAGEMENT ANNOUNCED

Mr. and Mrs. Nelson Prewitt Van Meter, of Clark county, announce the engagement of their daughter, Martin Chandler, to Mr. William Savage Duty. The wedding will take place in January. Mr. Duty is proprietor of the Duty drug store, in Winchester, and both he and his charming future bride are prominent in social circles. The announcement comes as pleasing news, although not altogether a surprise to their many friends.

Mr. Duty formerly lived in this city, where he has a large number of relatives and friends who will be interested in the above announcement.

Will Sing at Paramount

Mr. Fred Strother will sing at the Paramount Theatre Thursday night. Mr. Strother has a splendid voice and this added attraction is sure to be appreciated.

SIX MONTHS OF LOCAL OPTION

Facts and Figures As To The Moral and Business Effect of Same in this City.

By popular vote, eleven saloons were closed in Mt. Sterling on May 25, 1915. It will therefore be seen that six months have intervened and the question is often asked us, what effect has local option had on our community from a moral as well as a business standpoint? Has local option been a success, as its advocates claimed for it, or has it paralyzed business, increased drunkenness and all forms of crime and proven to be non-enforceable, as its opponents confidently asserted it would?

With a view of dealing only in facts, which are said to be stubborn things, we have interviewed many citizens, irrespective of how they stood upon the question, including merchants, mechanics, farmers and professional men, as well as obtained an itemized statement of convictions from our criminal court dockets and from this investigation, as well as from close personal observation, we shall endeavor to frankly and fairly give our readers our conclusions.

From a Moral Standpoint.

Does local option improve conditions morally, or are drunkenness and all kinds of crime increased? Practically all cases of drunkenness and offenses growing out of it, are tried in the Mt. Sterling Police Court. From May 25, 1915 to November 25, 1915 (six months) there were fifty-five convictions for drunkenness and eleven convictions for disorderly conduct. During the same period of 1914 there were one hundred and thirteen convictions for drunkenness and twenty-three convictions for disorderly conduct, showing a decrease of more than one hundred per cent. under local option. The county and circuit court dockets show approximately the same de-

ASLEEP IN JESUS

Mrs. Mary Stephens, One of Mt. Sterling's Oldest and Most Beloved Women Dies.

A few minutes after our paper had gone to press last week we were advised of the death of Mrs. Mary Stephens, one of our oldest and most beloved women.

Mrs. Stephens had been an invalid for many years but only the week preceding her death was her condition serious.

She was twice married, her first husband, Chas. G. Thompson, dying during the Civil War, and her second husband, William Stephens, died about twenty years ago. Her first union was blessed with six children, only two of whom survived, Mr. C. G. Thompson and Mrs. Geo. E. Coleman, of this city, while four step-children, Mrs. Pattie Thompson and Mrs. Anna Lee Montjoy, of this city, Mrs. Owings Lane, of the county, and Mr. William Stephens, of California, also survive. One brother, Mr. Albert Orear, and one sister, Mrs. Bettie Wyatt, both of this county, are left, together with many grand-children and great-grand-children to mourn her loss.

Funeral services were held at her late residence Thursday afternoon at 2 o'clock, conducted by Rev. Southgate of the Methodist church, to which church she had belonged since a little child. Burial in Maehpelah cemetery. The Advocate joins countless friends in tendering sympathy.

she seemed born to inspire the love and respect of all who were so unfortunate as to be acquainted with her. No one was more willing to aid the suffering, cheer the desponding, sustain the weak and to throw over the frailties of our race the mantle of Christian charity, and when sickness and death came to her, as it comes to all, neighbors and friends vied with each other in acts of loving kindness and tender solicitude, and many were the willing hands and hearts ready to assist him upon whom rested the heavy responsibility of attempting to fight back the ravages of disease — to avert the inevitable — and in whom were united the devotion of a friend, the untiring skill and watchful care of the conscientious, painstaking physician, but love and skill were equally of no avail. The great destroyer had placed his signet on her brow and now, hundreds who loved her living, mourn her dead.

Services Will Be Held Sunday Evening at Seven O'clock at Christian Church.

TUBERCULOSIS SUNDAY

In accordance with the proclamation issued by Governor James B. McCreary, Tuberculosis Sunday will be observed in Mt. Sterling on December 5th. (next Sunday).

The congregations of all the churches in the city will unite in a service to be held at the Christian church at seven o'clock p.m., at which time Dr. W. R. Thompson, of the Board of Health, will discuss the "Great White Plague," its frequency, its evils, the preventives which may be of use and in a general way, explain how the "layman" may assist in stamping out this PREVENTABLE disease which is costing Kentucky thousands of lives annually.

An ex-saloonist is authority for the statement that the average receipts of each saloon was \$1,250.00 a month — some of them much more and a few of them less — or \$165,000.00 annually for the eleven, which, in the main, came from that class of citizens who could ill-afford to thus spend their earnings.

This enormous sum, which heretofore constituted an economic waste, would have been sufficient to wipe out, in one year, the entire floating and bonded indebtedness of both the city and county; would have purchased the ground, built and equipped two warehouses like that of the Farmers' Tobacco Warehouse Company; would have purchased the ground and built two buildings like our handsome government building; would have purchased the ground, built and equipped an adequate consolidated school in every Magisterial district of the county, would have reconstructed every mile of macadam road in the county, and in fact, amounts to more than the entire sum taken in taxes for city, county, state and school purposes.

SWANGOS BACK

FROM HONOLULU

Mrs. James H. Swango and children spent twelve weeks in Honolulu with Mrs. Swango's sister, Mrs. Denham Barnes, and husband, who is going up a mountain; in fact is a physician. Judge Swango the volcano is not on a mountain joined them for a ten days' stay on peak, but comparatively level the island and accompanied them ground. The most exquisite wild home. Mrs. Swango says the flowers bloom along the drive until most wonderful experience of their whole tour was the trip to the volcano Kilauea, the world's greatest living volcano. It is a three days' trip, steamers sailing twice a week, with an automobile trip of thirty miles to the crater.

This crater, unlike that of Vesuvius, is easily approached and one can get so near as to look down at the living fire pit and see the flames rolling about. One of the stunts all tourists do to prove they have been so near this fire pit,

is to take post cards and search them by holding them into crevices in the lava and sending them home.

Mrs. Swango says the ascent is so gradual that one never feels he is a physician. Judge Swango the volcano is not on a mountain joined them for a ten days' stay on peak, but comparatively level the island and accompanied them ground. The most exquisite wild home. Mrs. Swango says the flowers bloom along the drive until most wonderful experience of their whole tour was the trip to the volcano Kilauea, the world's greatest living volcano. It is a three days' trip, steamers sailing twice a week, with an automobile trip of thirty miles to the crater.

One of the features of Honolulu, a city about the size of Terre Haute, Ind., is the ample yards about the homes. There is no crowding of houses as is becoming the case here. In her sister's dining room there are many windows, screened, but no window glass.

None is needed, as it is never cold enough for a fire and, strange as it may seem for a tropical climate, there are no thunder nor wind storms. It rains frequently, often when the sun is shining, rainbows being almost an everyday sight; also lunar bows, as they call those that can be seen on moonlight nights when a shower comes up. No one minds these showers, as they are soon over and keep everything fresh and green.

Sea bathing, of course, was one of the delights of the Swango party, as it is of every tourist. Going to the beach for a swim in the afternoons is a regular part of the day's schedule. The water is always warmer than the atmosphere and so heavy with salt as to make it easy to do all sorts of water stunts, besides receiving the stimulating effect of the salt.

The grown-ups of the Swango party did not see the deposed queen Liliokalani, but the children did. She was the eighth queen and the last to occupy the throne of Hawaii, being deposed in 1895. When the United States took over the islands and formed a territory of them, Liliokalani was given a pension for life. The queen has a handsome home and once a month natives who are loyal to her give her a concert. The children of the Swango party were going by her house one afternoon when this concert was being given and stopped at the gate to listen. They saw the Queen seated on her porch. Liliokalani is a musician and has composed some of the Hawaiian music, now familiar on Victrolas.

Mrs. Swango, like other discerning travelers, says she finds when one impartially weighs in the balance the attractions and the objections to different localities, they very nearly equalize. While she enjoyed intensely the trip to Honolulu and admiring the royal palms, the tropical luxuriance of the flowers and

the caressingly balmy climate there, it makes one lazy, and then, too, there are many insects. The trees, while most decorative, are not majestic like our elms, oaks and maple.

There are no flies at Honolulu, but many varieties of ants. These ants eat the fly larvae but they also are fond of food stuffs and silk dresses. Dr. and Mrs. Barnes have a large circle of acquaintances among the army people stationed on the island. The wives entertained Mrs. Cowgill and Mrs. Swango with lovely teas and card parties. Mrs. Barnes is always at home on Monday afternoons, when she serves ice tea and cakes. The governor of the islands is an American but the policemen are natives.

A stop at the Grand Canyon of Arizona was one of the treats of the summer's outing. The party attended the San Francisco fair, both going and returning. The great beauty of the buildings impressed them but they say the dense fogs so dimmed the magnificent electrical illuminations as to make them nearly a failure every night, save one while they were in San Francisco.—Terre Haute (Ind.) Saturday Spectator.

Judge Swango is a son of Judge and Mrs. G. B. Swango, of this city.

AFTER GRIPPE

Vinol Restored Mr. Martin's Strength

Wapakoneta, Ohio.—"I am a farmer by occupation, and the grippe left me with a bad cough and a nervous, weak, run-down condition, and I could not seem to get anything to do me any good until I took Vinol which built me up, and my cough and nervousness are all gone, and I can truly say Vinol is all that is claimed for it."—JAMES MARTIN. Vinol is a constitutional remedy for all weak, nervous and run-down conditions of men, women and children, and for chronic coughs, colds and bronchitis.

We have a healthy respect and a high regard for the man or woman who has something good to say of others. We are all too prone to magnify the defects and forget the good qualities of our friends and neighbors, apparently forgetful of the fact that there is good in all people, and that a little assistance and encouragement will oftentimes bring to the surface sterling qualities that have lain dormant for many years. Spend the good word.

We can't all be rich, and we won't all be paupers, but we can have a deal of fun trotting along in the middle of the road.

Folks who keep their bedroom windows closed because they don't believe in breathing the night air will do well to recall the wise lady who remarked that, after all, night air is the only sort of air there is at night.

SIXTY AEROPLANES IN FLOCK

French Attack on German Position in Forest Must Have Been Spectacular in the Extreme.

A thrilling account is given in the French paper, *Liberte*, of a recent allied raid with sixty aeroplanes upon the forest of Houthulst, which is situated about half way between Dixmude and Ypres.

The forest is practically sheltered from the effects of allied artillery, and it has been converted into a regular garrison district with barracks full of troops and munitions depots and the whole camp illuminated with electric light.

Through air photographs the situation of the main military buildings was located exactly, and at 10 p. m. the 60 French, Belgian and British aeroplanes started out in clear moonlight. Immediately the aeroplanes appeared there was great excitement in the camp. All lights were extinguished and anti-aircraft guns came into action, but the airmen, greatly assisted by the moonlight, dropped four tons of high explosives and incendiary bombs upon the camp and depots.

Some of the aircraft returned to refill with shells no fewer than three times in the course of the night.

By the light of the fires started the airmen asserted they saw groups of soldiers fleeing in great disorder in the panic caused by the continual explosions in the ammunition depots. By 11:30 p. m. the entire forest and the buildings it contained were in flames.

THE GAME BEGINS

"And what do you know about Homer?"

"Lots. Didn't Ducky Dunn and Patay Sanks make three homers in the very last game on the lot down the street?"

GOING THE GAITS.

"Too bad about Wopsley. He's involved in a terrible scandal and I thought all the time that he wore the 'white flower of a blameless life.'"

"That's all you know about Wopsey. As a matter of fact, he's been wearing the red carnation of a cabaret rounder."

DISCOURAGING SUBJECT.

"Dubson has my sympathy."

"Why so?"

"He never thinks of anybody but himself."

"He should be censured for that."

"No. He must suffer. Imagine spending a lifetime thinking about a person of Dubson's caliber."

HAPPENING OF UNEXPECTED.

Mrs. Homer—What! Your husband ill?

Mrs. Peckem—Yes; he had an awful shock this morning.

Mrs. Homer—You don't say!

Mrs. Peckem—Yes; he and I had a quarrel and mamma sided with him.

NEARER HOME.

"What do you think of this eruption of Mount Vesuvius?"

"Why, it's nothing to the one our baby had."

THE MAIN ISSUE.

TRY FOR ONE DAY

If you have any doubt in your mind as to the good that can come to you by living in the sunshine way, we ask you to try for one day and prove by personal experience whether or not it is worth your while to scatter sunshine. Begin at once by trying to make these about you in your home happier. Keep a sharp lookout for little opportunities of helpfulness. Be courteous and kind whenever you speak or are spoken to. Be pleasant to everyone everywhere. Be willing to sacrifice your own personal enjoyment if by so doing you can make another person happier. Do all this and see when night comes if your own heart is not full to overflowing with peace and joy unspeakable.

CHRISTMAS SHOPPING

In a very few days we will all be looking around for Christmas gifts for our loved ones. And right here we want to say a word to the citizens of this and surrounding counties. Our business throws us in close contact with our merchants and this year they have a larger and better selected stock and at more reasonable prices than we have ever seen. There is, therefore, no necessity to go further than Mt. Sterling to do Christmas shopping. In addition to saving money, every citizen of the county owes it to himself to patronize his home merchants. Their success means his success and the sooner every one becomes convinced of the fact that the more prosperous the merchants are the more prosperous becomes the whole county, the better off we all will be. At least give your home merchant the preference, all things being equal. You cannot deny that this is but common justice. To help you appreciate this, suppose for a moment you were a merchant and the merchant were in your place.

Some way or other we can't get the idea out of our head that Mr. Henry Ford, of "Tin Lizzie" fame, in his peace program, is but doing a smooth bit of advertising.

We don't know how it is in other communities, but the argument that the local option law cannot be enforced, certainly does not hold good in Montgomery county.

Six Months of Local Option

(Continued From Page One)

whisky houses. And just a word here about this infamous shipping law, we have both in the state and nation, which annuls, to a large degree, the benefits to be derived from the county unit law, by permitting the intra-state and the inter-state shipment of whisky from wet to dry territory. The records of the local express and freight offices show that approximately thirty quarts of whisky are received here daily and several barrels of bottled beer weekly. This accounts for the appreciable amount of drunkenness we yet have in our city and county. The law is well enforced—no one questions that—and every man convicted for drunkenness is made to tell under oath where he got his whisky and ninety-nine per cent. of them answer Lexington. When obtained locally, as has been the case in a few instances, prosecutions and convictions of the guilty have quickly followed. There is also a large amount brought in as personal baggage on the trains and by automobiles, which now make weekly trips to the Fayette capitol.

But we digress, as we were discussing its effect on business. Our banks show the usual amount of deposits and our merchants, as a rule, report business to be good.

This is rather extraordinary because of the unusual increase in grocery and dry goods stores, both in the city and county. Our citizens seem to have adjusted themselves to new conditions more rapidly than we expected and with a few exceptions, we have heard nothing but complimentary comments on its effect from every view point. So successful has it been, in fact, that we have repeatedly heard men who voted wet say they would never vote to return to the old order of things. Of course conditions are not ALL that the temperance leaders hope for and never will be so long as the shipping law above referred to remains upon our statute books. This, however, we sincerely hope and confidently believe will be repealed next month when the legislature convenes. Then a dry county can have local option in truth and in fact, as few will send beyond the borders of the state to obtain intoxicating beverages.

If it is saddle or harness goods or repairing, go to Conroy, thus securing prices, efficiency, quality and promptness. No chance to lose.

CHICAGO'S BOOZE IDEAL

Chicago wants its beer on Sunday even more than other days, law or no law, and most particularly wants everybody to know it.

Its recent "personal liberty" parade was the most remarkable demonstration on either side of the liquor question in the history of the country. It was a popular protest against Mayor Thompson's action in ordering the city's saloons closed on Sunday. According to an official count more than 44,000 men, women and children participated to the music of countless brass bands and legends. Of this number 26,616 marched on foot. There were 2,242 vehicles, mostly automobiles.

The mayor—who pledged himself before election to be "liberal" on the liquor issues—and then went back on his pledge—doubtless felt the force of the demonstration. The paraders numbered three times as many as marched in the "prosperity parade" that preceded his election, and nearly eight times as many as participated in a "dry" parade in the mayor's honor. Presumably Chicago cares more for its liquor on Sunday than it does for either prosperity or temperance.

Chicago should no longer be called the "Windy City." The "Wet City" would be a more appropriate title, expressing not its present sad state, but its belligerent ideals. Owingsboro Messenger.

Our staff correspondent at the **THE HUNTER AND THE MERCHANT** front sends us a wireless to the effect that "the war may end next week, and then again it may not." For downright reliability, ingenuity and truthfulness, that correspondent is second only to ourself. He's a bird.

Some men get married to save the combined salaries of a cook, a housekeeper, a maid and a trained nurse.

The hunter with an unloaded gun never bags any game. And as it is with the hunter and his gun, so it is with the merchant and newspaper advertising.

The merchant who goes to the people with an advertisement loaded with gripping facts gets the business. He appeals to them because he is progressive enough to tell them what they want to know about the goods they want to buy.

Any person who is in the market for a certain article is interested in knowing something about that article before they part with their money. They want to know what store or stores have it before they go out hunting for it. And they read the advertisements in order to get that information.

The people of this community are already buying their holiday goods, and they will spend a large amount of money before the 25th of December is here.

Your advertisement in this paper will do the work of the load in the hunter's gun—IT WILL BAG THE GAME.

Thinking leads to talking; talking produces advertising; advertising gets results.

To the Citizens of Mt. Sterling and Montgomery County:

Knowing the very great need of a hospital for our town and county, we, the Montgomery County Medical Society, desire to offer the following reasons why one should be built and maintained by the good people of this community:

1st. We believe that not less than 8 per cent. of the deaths due to preventable diseases each year in our county are due to the want of proper hospital facilities.

2nd. We know that a considerable number of persons in our county each year are rendered unfit for future usefulness for the want of proper nursing and care during illness. These unfortunate fall easy victims to tuberculosis and allied diseases that carry them off before their time.

3rd. We know that every year a number of children in our county suffer from bone diseases and are rendered cripples for life. If these little ones could have proper hospital care in the beginning they could be made useful men and women in place of charges on the county and charity.

4th. We know that persons in our county lose their eyesight for the want of a proper place to test them in the right way.

5th. We know that in those cases of severe illness among us that recover, much suffering, due to incompetent nursing and poor diet would be avoided and recovery hastened in a well appointed hospital.

6th. A hospital would supply a long felt want in our community in furnishing a place for the young men and women, who depend upon their daily labor for a living, in which, should sickness overtake them, they could be properly cared for.

7th. We have no place in our county where emergency cases and eases the result of injury may be cared for and as a result life is often lost or poor results obtained.

8th. The stranger within our gates has no place to go should be taken ill in our midst, except to a boarding house or hotel and we know that these places however good they may be, are not prepared to take care of sick people.

9th. We know that the hospital care of the sick is far safer and more economical than care in private homes and we want to urge upon our people the necessity of such an institution that every one regardless of his or her station in life may avail themselves of this boon should necessity arise.

10th. Practically all the counties in the Blue Grass region of Kentucky have hospitals or movements under way for the construction of them in the near future and we feel sure Montgomery county will not be behind the rest in doing her duty.

11th. We know of no more Christian or worthy work our people could engage in than the erection of a hospital where the sick may be cared for in the proper way and we feel the time is now ripe for it to begin.

Humanity, Christianity and Duty call, let us not fail to hear and act. Montgomery County Medical Society.

DUTY

How many times we could make our mothers, fathers, sisters and brothers happy! But for the lack of thoughtfulness we so oftentimes forget our duty until it is too late, and we make our lives a sorrow. In their disappointments, trials and troubles we could often soothe and help just by doing our duty. We forget the disappointments which come upon others, but are continually looking at those which come upon ourselves, and there—by neglect of duty. We do not think that everyone bears as great, or greater burdens than we. If we could forever keep in mind the times that we have felt depressed, and how we wished for a kind, sweet word or smile, and, too, how we rejoiced to see our mother's and father's sweet faces smile upon us, or give just one word of cheer. Then after we get this word of cheer, why do we forget our duty?

3rd. We know that every year a number of children in our county suffer from bone diseases and are rendered cripples for life. If these little ones could have proper hospital care in the beginning they could be made useful men and women in place of charges on the county and charity.

Do you know that the old rut you are traveling around in is becoming worn, and is getting deeper and deeper, and more impossible for the future? A change of environment is a good thing and is often productive of excellent results. Now just for a change suppose we all go to church next Sunday and listen to what the preacher has to say. He has some good ideas that are well worth hearing, and we may even imbibe a few chunks of wisdom that will be well worth storing up in our fountain of knowledge. At any rate, the change will be good for us, and it will be an hour pleasantly spent. Let's go!

OLD FAMILIES DIE OUT

At Princeton a professor of eugenics, or, let us say, an apostle of the new gospel of race regeneration, through the application of the stock farm code to the human family—this professor announces, as a startling discovery, that the old families are dying out and insists upon some steps to prevent this decay.

There is nothing can prevent it, as there is no reason for supposing there is any loss in it.

Because the old families have died out, either in numbers or in power, the hereditary monarchy has disappeared or is rapidly disappearing from civilized nations.

In order to give that system a stronger hold upon the people, these monarchs proclaimed the fact that they were vice regents of God and that they ruled by divine right.

The delusion or superstition still prevails in Germany and Austria. It has been greatly shaken in Italy. It does not exist in the Balkan nations. Turkey clings to it firmly; but it is a doctrine that does not accord with that men know of each other and of life, and so it is being repudiated by the people.

Human history shows that the families established by great men die out gradually, and that in the course of a few years they disappear or are mingled with and lost among the great body of the people. Galton's records show this and Galton's contentions, we believe, are at the base of most of the modern pleas for eugenics.

It is idle to regret these conditions. It would be unfortunate if these great families persisted, generation after generation, and century after century. The best thing that can happen to the race is to absorb the descendants of these mighty men of the past and then develop a new dynasty of power and capacity, "lest one good custom corrupt the world."—Louisville Post.

A SERUM FOR TYPHUS

The Royal Hungarian Experimental Station says it has discovered a serum which is a specific for typhus. If that is true the war, with its incidental scourges has resulted in a great advance of medical science. Typhus, a deadly disease which is not as often stated, typhoid fever, is almost a plague at times and in places in Europe. It is a slow disease requiring careful nursing and necessitating a long period of disability. There is a high mortality rate. A specific which will cure ninety-six per cent. of cases, as it is stated the Hungarian serum has done, would save thousands of lives each year and in time would be the means of as much salvage as there has been waste during the war.

A Chicago doctor charged a patient \$1,000 for stopping a case of nose bleed. The patient refused to pay. The doctor sued, and another doctor testified in court that the fee was not excessive, while yet another one thought \$600 was about right. And to think that we are running a newspaper instead of being a nose bleed specialist!

MAKING A MAN

Hurry the baby as fast as you can.

Hurry him, worry him, make him a man.

Off with his baby clothes, get him in pants,

feed him on brain food and make him advance.

Hustle him as soon as he is able to walk,

Into the grammar school; eram him with talk.

Fill his poor head full of figures and facts,

Keep on a jumping them in till it cracks.

Once boys grew up at a rational rate;

Now we develop a man while you wait.

Rush him through college, compel him to grab

Of every known subject, a dip and a dab.

Get him in business and after the easb,

All by the time he can grow a moustache.

Let him forget he was ever a boy, Make gold his god and its jingle his joy.

Keep him a hustling and clear out of breath

Until he wins—nervous prostration and death.

Get there on time and leave on time, and perhaps you will be invited to call again.

Says Vinol Creates Strength

Rosary Hill Home, Hawthorne, N. Y.

— "I have used Vinol for many rundown, weak or emaciated patients with benefit. One young woman was so weak and ill she could hardly creep to my door for aid. I supplied Vinol to her liberally and in a month I hardly recognized her. She was strong, her color charming and her cheeks rounded out." —MOTHER M. ALPHONSA LATHROP, O. S. D.

We guarantee Vinol to sharpen the appetite, aid digestion, enrich the blood and create strength.

Bassett Drug Co., Mt. Sterling, Ky.

An editor once wrote an editorial entitled "The Naked Truth." The office devil lifted the T and made it read "The Naked Ruth," but it happened in high society and was only an incident of the day. And this just reminds us that down among normal human beings clothing makes the man, and the lack of it makes him stare.

The man who believes in eternal punishment for those who do not think as he does, has no business calling himself a Christian.

There's a lot of energy corked up in this town. Jerk the cork!

AFTER THREE YEARS

Mount Sterling Testimony Remains Unshaken.

Time is the best test of truth. Here is a Mount Sterling story that has stood the test of time. It is a story with a point which will come straight home to many of us. John Forman, 8 Montgomery St., Mt. Sterling, Ky., says: "I have been a hard worker all my life. When I had lifting or heavy work to do, I went about it and did it and in that way wrenched my back. I was laid up for several days and began looking around for a cure. I did not find anything that would help me until I got Doan's Kidney Pills at Duerson's Drug Store. They soon made me feel well and strong and free from kidney trouble."

OVER THREE YEARS LATER, Mr. Forman said: "I am glad to confirm what I said about Doan's Kidney Pills before; they did more for me than any kidney medicine I ever used."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Forman had. Foster-Milburn Co., Props., Buffalo, N. Y.

HOTEL AND SPRINGS SOLD

A large stock company composed largely of Lexington capitalists, the first of the week closed a deal whereby the company took over the Kentucky Carlsbad Springs and adjacent properties in Grant county.

At a meeting of the directors Dr. A. G. Payne, of Lexington, was elected president; J. W. Glover, also of Lexington, vice president, and J. W. Stears, of Dry Ridge, secretary and treasurer. The capital stock is fixed at \$135,000 with \$60,000 preferred stock, and it is held by residents of Lexington, Georgetown and Dry Ridge. In addition to the Carlsbad Springs, bought from J. B. Saunders, the holdings of the Avon Moore Company and the J. W. Stears property, on both of which are mineral wells, were included in the purchase. A contract for an addition of fifteen rooms to the Carlsbad Hotel, together with other extensive improvements has been made, and the directors voted to build another modern hotel on the Avon Moore tract.
